Subject: Our economy needs your support

The EPA should care about our economy and jobs and the environment

I support a thorough cleanup plan for the Willamette River but the idea that we can restore the river to its original state is not realistic. That kind of cleanup would take forever and it would cost a ton. Make sure that we get a flexible cleanup plan that works. A complete dredging of the river would put the business I work for - out of business. The river is naturally correcting itself and I believe there are less expensive and more environmentally safe alternatives than doing a complete dredge of the river.

This is important to me and our community. Please do the right thing and support our economy.

Sincerely,
